

# CyQu Privacy Policy

## Overview

This document outlines the privacy principles governing the CyQu platform. All information collected through the evaluation process is handled in accordance with global privacy standards and Aon's internal governance framework.

## Data Collection

- Assessment responses related to cyber maturity.
- Business contact details for authorized representatives.
- Platform usage metrics and session activity logs.

## Use of Information

- Generate benchmarking and risk posture reports.
- Support client advisory and risk consulting services.
- Maintain compliance with regulatory obligations.

## Data Security

All data is encrypted in transit and at rest. Access controls are enforced through role-based permissions and monitored continuously.
